SmaRT

Summer Student Program

at the University of Milano-Bicocca

SmaRT Participating Departments

- I Biotechnology and Biosciences**
- I Experimental Medicine**
- I Neuroscience and Biomedical Technologies**
- I Clinical Medicine and Prevention**
- I Surgical Sciences**

The SmaRT Summer Student Research Training Program provides opportunity to spend 10 weeks between May 7th 2012 and July 30th 2012 experiencing real science and research in a multidisciplinary environment. Program participants will contribute to projects and gain experience that complements their course of study.

Postgraduate students (students with first level/bachelor degree and attending the second level courses) in Biochemistry, Biology, Biotechnology, or Medicine, who are **citizens of EU Member States or of Candidate Countries** (Croatia, The former Yugoslav Republic of Macedonia, Turkey, Iceland) are eligible to apply. Students will be awarded a compensation.
