2022 – today

Adopt a Construction – Towards an Italian Constructicon

Website of the project: <https://adoptaconstruction.websoupcloud.it/>

Goal of the project: AdoC aims at creating the first Constructicon for the Italian language, to be released as a freely accessible online relational database with an advanced web search interface.

Research team: Francesca Masini (PI); Claudio Iacobini (vice-PI); Marianna Bolognesi, Lucia Busso, M. Silvia Micheli, Flavio Pisciotta, Maria Pina De Rosa, Fabio Tamburini

2021 – today

Italian Diachronic corpus (CODIT – Corpus Diacronico dell’italiano)

Description of the corpus: <https://wiki.korpus.cz/doku.php/en:cwk:codit>

Queryable interface: <https://www.korpus.cz/kontext/query?corpname=codit>

Goal of the project: the project aims to build a diachronic corpus of Italian balanced by chronological periods and textual genres. The corpus is already freely accessible, but the annotation is in progress.

Research team: M. Silvia Micheli, Claudio Iacobini, Jan Radimský in collaboration with the Institute of Czech National Corpus (Prague)
