INTRODUCTION

The aim of this Guide is to provide guests of the University Residences with an agile and simple tool that brings together all the information and services offered by the Università degli Studi di Milano Bicocca that will be useful for life in residence.

BICOCCA RESIDENCES HELP CENTRE

The University has set up a proximity service designed for students who are guests of the University Residences, who can discuss any problems related to their life in residence, request information on living in the residence and report related problems. Here is the QR Code that redirects you to the information on the site, or you can write to ascolto.residenzebicocca@unimib.it

ASSISTANCE AND MEDICAL CENTRE

The University offers a Medical Centre service: operating from Monday to Friday from 8:30 a.m. to 4:00 p.m. for triage and medical assistance on site or on call, only in the case of situations that can be resolved without transfer to Hospital (e.g. episodes of illness/injury, accidents requiring simple outpatient intervention; survey and assessment of vital parameters...). The QR Code shown here redirects you to the site where you will find all the information for accessing the service.

The University Health Centre can be contacted by e-mail at medico.competente@unimib.it or by telephone at 0264486119 during opening hours.

This service does not replace the assignment of a general practitioner, nor does it replace emergency services, which are always handled by calling the telephone number **112** (please see the Emergency section).

BENEFITS FOR THE RIGHT TO EDUCATION

For information on benefits for the right to education, which include:

- Grants;
- Contribution for housing;
- Contribution for meals;
- Special grants;

you can be redirected to the appropriate page on the site by means of the QR Code shown here.

TRUSTED ADVISOR

The Trusted Adviser - an institutional figure provided for by the Code to protect the dignity and well-being of individuals and the organisation - provides free counselling to persons subjected to sexual or moral harassment or mobbing who work and study in any capacity at the Università degli Studi di Milano-Bicocca. This figure is able to assist, in absolute confidentiality, the victim of harassment or bullying, and to activate, in agreement with the person concerned, the informal and formal procedures finalised at addressing the problem and preventing its recurrence. The QR Code shown here redirects you to the site where you will find all the information you need for accessing the service.

Take note of the **anti-violence and stalking number 1522**. It is a public service, free of charge, promoted by the Presidency of the Council of Ministers - Department for Equal Opportunities. The number is active 24 hours a day and receives calls from victims of violence and stalking in order to provide them with help and support.

COUNCIL OF REPRESENTATIVES

The Council of Student Representatives of the Residences has been created in order to establish a closer, more organic and continuous relationship between the University and the students housed in the University Residences, pursuant to art. 16 of the Cohabitation Regulations in residences and housing units.

The Council acts as an interlocutor with the competent bodies and structures of the University with regard to issues of interest to the students that are connected with the management of the Residences, and has the task of receiving the guests' requests and drawing up proposals for improving the services provided within the Residences.

The QR Code shown here redirects you to the site where all the information is provided.

CULTURAL AND COMMERCIAL AGREEMENTS

Each year, the University enters into commercial and cultural agreements and conventions with public and private entities in order to facilitate students. The QR Code shown here redirects you to the site where all the information is provided.

PSYCHOLOGICAL COUNSELLING

The Psychological Counselling Service is aimed at any student who feels the need for a space for personal insight and clarification with regard to impasses that interfere with the continuation of his or her studies and the full realisation of his or her potential.

This service offers students a short cycle of individual interviews with Psychotherapists and Clinical Psychologists, graduate students in Clinical Psychology and Psychotherapy and experts in the Psychology of late adolescence and young adulthood.

Periodically, moments of shared reflection are also proposed through group processes, which will be communicated in this section. The QR Code shown here redirects you to the site where you will find all the information you need for accessing the service.

DIGITAL WELCOME KIT

The Digital Welcome Kit contains all the essential information to help you embark on your university career. It includes access to digital platforms and the e-learning portal, as well as student career management resources and contacts for assistance. It provides information on the services offered, internships, the right to education, and international mobility programmes. It also promotes participation in cultural and sports activities.

EMERGENCY AND EVACUATION

Download the free app **Where Are U:**

<https://www.areu.lombardia.it/web/home/app-where-are-u>

Where Are U is the app that allows you to call the European Emergency Number 112 (where available), automatically sending your location data and other information that you have included in the app.

The European Emergency Number 112 was established to give all European citizens a single number for their requests: Medical Emergency personnel, Fire Brigade, Police Force are alerted by the same Operations Centre that locates the citizen requiring emergency assistance.

IN CASE OF EMERGENCY

- call 112 (Emergency Telephone Number) directly
- notify the emergency number of the Reception desk as soon as possible:
