2. Entry requirements and assessment of background knowledge

Admission to the master's degree programme in Artificial Intelligence for Science and Technology (LM-91) is subject to the possession of specific curricular requirements and to the adequacy of personal preparation verified by an Evaluation Committee in accordance with the procedures defined in the degree programme's Didactic Regulation (A.Y. 2026/2027).

Admission to the master's degree programme in Artificial Intelligence for Science and Technology requires a bachelor's degree (or three-year university diploma).

Once the curricular requirements have been verified, admission to the course is conditional on the assessment of the adequacy of personal preparation. The adequacy of personal preparation will be assessed by means of an interview by an Evaluation Commission.

Interviews will be held remotely.

2.1 Entry Requirements

Basic knowledge of Computer Science, Mathematics, Statistics and Physics is required, more precisely:

- a total of at least 30 CFUs in the following academic disciplines: INF/01, ING-INF/05, ING-INF/03, MAT/01 to MAT/09, SECS-S/01 to SECS-S/06, FIS/01 to FIS/08.
