2. Entry requirements and assessment of background knowledge

Admission to the Master's degree programme in Data Science (LM Data) is subject to the possession of specific curricular requirements and to the adequacy of personal preparation verified by an Evaluation Committee in accordance with the procedures defined in the degree programme's Didactic Regulation (A.Y. 2026/2027).

Admission to the Master's degree programme in Data Science requires a bachelor's degree (or three-year university diploma).

Once the curricular requirements have been verified, admission to the Master's degree programme is conditional on the assessment of the adequacy of personal preparation, which will be carried out through an admission interview. **The admission interview will assess knowledge in the fields of computer science and statistics according to the syllabus available [here](#).**

During the admission interview the Evaluation Committee may suggest to candidates the opportunity of attending in-depth disciplinary courses.

Students living more than 100 km from our University, or those having documented study, work or health reasons may request to take the interview remotely (via videoconference) to segreteria.didattica@disco.unimib.it.
