

## Programme - June 2026

The INVEST Fellow Programme offers a diverse range of competence development opportunities for both academic and administrative staff across INVEST partner universities. Explore April's webinars below and visit the INVEST website for the latest updates on upcoming trainings and recordings of past sessions.

### **Webinar: Opening Up Research: Why Open Science Matters And How To Get Started**

June 24, 2026,

**To whom:** Staff at INVEST partner universities

**Registration link:** <https://tinyurl.com/45btnv7n>

This seminar introduces Open Science—what it is, why it matters, and how to apply it in practice. It explores challenges such as reproducibility and data transparency, presents key tools like pre-registration and open data, and highlights growing policy requirements from funders such as NIH and Horizon Europe.

**Speaker:** Cristina Zogmaister, Associate Professor of Psychology at the University of Milano-Bicocca

### **Webinar: Econophysics: How Physics changed the way of thinking and research in Economics**

**When:** June 24, 2026 at 12 CET / 13:00 EEST

**To whom:** Students in Economics, in Business Administration, in Physics, in Mathematics or in Science (generally), Staff

**Registration link:** <https://forms.gle/V21RZrrRHVj1FYzR8>

This webinar introduces Econophysics, an interdisciplinary field applying physics-based approaches to economic systems. It explores key concepts, their applications to markets and inequality, and how they challenge traditional economic models, while highlighting both opportunities and limitations of this approach.

**Speaker:** Loukas Zacheilas, Professor of Applied Mathematics for Economists, University of Thessaly
