TUTORIALS

Tutorials on specific topics (biocatalysis, fundamentals of economics) will be activated on demand to fill possible gaps in the participants background.

EXERCISES

Participants will be divided in small groups and will develop an own project taking into account all issues tackled during the course. Results will be presented on the last day in a session coordinated by **M. Cristina Ceresa**, journalist, Edizioni Green Planner.

FELLOWSHIPS AVAILABLE!

Fondazione Giannino Bassetti will award 2 fellowships to cover the course fees.
