

INTERNATIONAL MASTER DEGREE

PROGRAM DURATION
2 Years

START DATE
October

CREDITS
120 ECTS

LANGUAGE
English

LOCATION
Milan, Italy

TUITION
Foreign students with a bachelor Degree (earned abroad) who enroll in AEPS will be entitled for the following benefits:
1st Year: Full fee waiver
2nd Year: € 500,00

University of Milano-Bicocca
Department of Psychology

APPLIED EXPERIMENTAL PSYCHOLOGICAL SCIENCES (AEPS)

DESCRIPTION OF THE COURSE

MSc. Degree in Applied Experimental Psychological Sciences (AEPS) offered by the Department of Psychology at the University of Milano-Bicocca is a new innovative two-year study program that focuses on the application of advanced knowledge in psychological sciences to address relevant human needs and tackle diverse issues in a range of contexts and domains.

The goal of the program is to teach cutting-edge perspectives on the cognitive, social, emotional, and neural processes underlying human thought, behavior, language, knowledge, and decision-making. The program will help AEPS graduates **acquire advanced theoretical and empirical knowledge**, strong transferable methodological research skills, with a specific focus on application of these skills, combining flexibility (e.g., the methodological research skills can be applied to a wide range of contexts) and specificity (e.g., they are applied to a specific issue during the course).

CAREER PATH

The expertise gained through the program will open a range of career paths for our graduates to pursue careers both nationally and internationally, across academia as well as private and public sector. The program also provides a foundation for undertaking doctoral studies.

COURSE DIRECTOR

Prof. Hermann Bulf

CURRICULUM

First year course (64 ECTS)

Cognitive Neuroscience 6 ECTS +2 ECTS E-Prime*

Cognitive Psychology 6 ECTS + 2 ECTS Matlab*

Social Cognition 6 ECTS + 2 ECTS Inquisit*

Psychometrics and Quantitative Methods 6 ECTS +2 ECTS R*

Cognitive Development 8 ECTS

Experimental Clinical Psychology 8 ECTS

Two of the following laboratory courses:

Research Methods in Cognitive Neuroscience

Measurement methods and ambulatory assessment

Computational Modeling

Cognitive and Behavioral Measures

Elective course 8 ECTS - *Students are free to choose from the course offered at Milano-Bicocca University.*

* These four courses have lab activities equivalent to 2 CFU (16 hours) each, which provide basic skills in programming experimental (Matlab, E-Prime, Inquisit) and statistical (R) software.

Second year course (56 ECTS)

Three of the following:

Cognitive Ergonomics

Decision Making

Applied Neuroscience

Applied Cognitive Development

Applied Social Cognition

Applied Psycholinguistics

Social Cognitive and Affective Neuroscience

Consumer Psychology

Games and Economic Behavior

Elements of Human -Technology Interaction

Transferable Research Skills Laboratory 4 ECTS

Evaluation of Psychological Interventions Laboratory 4 ECTS

Internship 8 ECTS, 200 hours: students can choose between an academic research internship in Italy/abroad or a professional research internship.

Dissertation 16 ECTS

common teachings

at choice
