PROGRAM DESCRIPTION

The main aim of the summer school is to improve the knowledge of the participants in the field of the urban attractions analysed from different perspective and in particular concerning different **types of urban populations and services**, different models of policies and governance structure.

The summer school will be divided in three sets of lessons and activities devoted to:

- the **analysis of the theoretical and methodological instruments** available in order to studying and improving urban attraction;
- the presentation of **successful case studies** of city marketing and attraction strategies performed in Italian and European cities;
- the **tour in specific places and “hot-spots”** within the two cities in order to corroborate the theoretical part with the empirical field (lessons in the morning and trips in the afternoon).

The final goal of the summer school is to **improve the capacity of the students** in cooperating with private and public agencies for promoting cities attraction.

The summer school is open to students as well as to policy makers working in the field of the city marketing.

CONTENTS COVERED

- QUALITY OF LIFE AND METROPOLITAN POPULATIONS LIVING, CONSUMING AND WORKING IN THE CITIES;
