Email(s)

Nationality(-ies)

Pini, Alessia

alessia.pini@unicatt.it

Italian

Current position

Mar. 2018 - now

Assistant Professor.

Dept. of Statistical Sciences, Università Cattolica del Sacro Cuore, Milan, (Italy).

Past positions

May 2017 - Feb. 2018

Post-Doctoral Researcher.

Dept. of Statistics, Umeå School of Business and Economics, Umeå University, (Sweden).

Feb. 2015 - Apr. 2017

Post-Doctoral Researcher.

Dept. of Mathematics, Politecnico di Milano, (Italy).

Oct. 2011 - 13 Dec. 2014

European PhD in Mathematical Models and Methods in Engineering.

Dept. of Mathematics, Politecnico di Milano, Milan (Italy).

Thesis: *Global and Component-Wise Distribution-Free Inference for Functional Data: Methods and Applications.*

Supervisor: Prof. Simone Vantini

Sept. 2011 - Dec. 2011

Dept. of Mathematics, Politecnico di Milano

Position: research collaboration funded by by Progetto Strategico Regione Lombardia: "Metodi statistici per la decomposizione di segnali di natura biomedica provenienti dal processo di cura di pazienti affetti da Sindromi Coronariche Acute (ECG)".

Jan. 2011 - Sept. 2011

Deloitte Consulting SpA - Service Line Finance and Risk

Sector: consulting and finance. Position: intern then employee

Main activities: analyst in **Counterparty Risk project**: estimate of the Counterparty Credit Risk, for Risk Management unit of an Italian bank. Analyses of historical data of principal risk factors (e.g., interest rates), choice of a simulation model for the time evolution of risk factors, pricing of OTC derivatives. Backtesting and stress testing policies.

June 2008 - July 2008

Associazione Cometa

Sector: education. Position: volunteer learning support teacher

Main activities: support teaching (Physics, Mathematics) for high school students with family problems.

Education

- Oct. 2011 - 13 Dec. 2014 **European PhD in Mathematical Models and Methods in Engineering.**
Dept. of Mathematics, Politecnico di Milano, Milan (Italy).
Thesis: *Global and Component-Wise Distribution-Free Inference for Functional Data: Methods and Applications.*
Supervisor: Prof. Simone Vantini
- Sept. 2008 - Dec. 2010 **M. Sc. in Mathematical Engineering.**
Politecnico di Milano, Milan (Italy).
Final mark: 106/110.
Major: Statistics. *Minor:* Finance.
Thesis: *Clustering di dati funzionali georeferenziati: studi di simulazione e analisi del database NASA "Earth Surface Meteorology and Solar Energy".*
Supervisor: Dr. Simone Vantini
- Sept. 2006 - July 2008 **M. Sc. in Engineering (Diplôme d'Ingenieur).**
École Centrale Paris, Paris (France).
Major: Applied Mathematics.
- Sept. 2004 - Sept. 2008 **B. Sc. in Mathematical Engineering.**
Politecnico di Milano, Milan (Italy).
Final mark: 106/110.
Thesis: *La volatilità nel calcolo del prezzo delle opzioni: il modello Constant Elasticity of Variance di Cox e Ross.*
Supervisor: Prof. Emilio Barucci

Visiting and Study Periods Abroad

- Jan. 2016 **University of Copenhagen**, Dept. of Mathematical Sciences, Copenhagen (Denmark).
- Nov. 2015 **Umeå University**, Dept. of Mathematics and Mathematical Statistics, Umeå (Sweden).
- Nov. 2015 **Free University of Bozen/Bolzano**, Alps Laboratory, Bolzano (Italy).
- Nov. 2014 **Umeå University**, Dept. of Mathematics and Mathematical Statistics, Umeå (Sweden).
- Jan. 2014 - Apr. 2014 **Umeå University**, Dept. of Mathematics and Mathematical Statistics, Umeå (Sweden).
- Nov. 2013 **Umeå University**, Dept. of Mathematics and Mathematical Statistics, Umeå (Sweden).
- Feb. 2012 **École Centrale Paris**. PhD school on Risk Assessment & Uncertainty Analysis. Paris (France).
- Sept. 2006 - July 2008 **École Centrale Paris**. TIME: Top Industrial Managers for Europe program: double degree in one of France's top level Engineering Schools ("Grandes Écoles").

Teaching

Teacher of "Statistical Learning",
M. Sc. in Data Analytics for Business and Economics, Università Cattolica del Sacro Cuore,

AcYr : 2018/19

Teacher of “Applied Statistics”,
B. Sc. in Economics and Management, Università Cattolica del Sacro Cuore,
AcYrs: 2017/18, 2018/19

Teaching assistant of “Statistics”,
B. Sc. in Economics and Management, Università Cattolica del Sacro Cuore,
AcYr: 2018/19

Series of lectures on simulation of Poisson processes for the course “Computer Intensive Statistical Methods”,
M. Sc. in Computational Science and Engineering, Umeå University,
AcYr : 2015/16

Series of lectures on permutation tests for the course “Applied Statistics”,
M. Sc. in Mathematical Engineering, Politecnico di Milano,
AcYr s: 2013/14, 2014/15, 2015/16, 2016/17

Teaching assistant of “Probability and Mathematical Statistics”,
B.Sc. in Management Engineering, Politecnico di Milano,
AcYr s: 2012/13, 2014/15, 2015/16, 2016/17

Laboratory activities of “Probability and Mathematical Statistics”,
B.Sc. in Management Engineering, Politecnico di Milano,
AcYrs : 2012/13, 2014/15, 2015/16

Laboratory activities of “Statistics”,
B.Sc. in Energy Engineering, Politecnico di Milano,
AcYr: 2011/12

Tutoring for laboratory activities of “Statistics”,
B.Sc. in Energy Engineering, Politecnico di Milano,
AcYrs : 2011/12, 2012/13, 2013/14, 2015/16

Journal Articles

A. Pini, L. Spreafico, S. Vantini, A. Vietti (2018): “Multi-aspect local inference for functional data: analysis of ultrasound tongue profiles”, *Journal of Multivariate Analysis*. doi: 10.1016/j.jmva.2018.11.006. To appear.

P. Finotelli, O. Dipasquale, I. Costantini, A. Pini, F. Baglio, G. Baselli, P. Dulio, P. and M. Cercignani, (2018): “Exploring resting-state functional connectivity invariants across the lifespan in healthy people by means of a recently proposed graph theoretical model”, *PLoS ONE* 13(11). doi: 10.1371/journal.pone.0206567.

A. Pini, A. Stamm, S. Vantini (2018): “Hotelling’s T^2 in functional Hilbert spaces”, *Journal of Multivariate Analysis* 167:284–305. doi: 10.1016/j.jmva.2018.05.007.

K. Abramowicz, S. De Luna, C. Häger, A. Pini, L. Schelin, S. Vantini (2018): “Nonparametric inference for functional-on-scalar linear models applied to knee kinematic hop data after injury of the anterior cruciate ligament”, *Scandinavian Journal of Statistics* 45(4): 1036–1061. doi: 10.1111/sjos.12333.

M. A. Cremona, A. Pini, F. Cumbo, K. D. Makova, F. Chiaromonte, S. Vantini (2018): “IWTomics: testing high-resolution sequence-based “Omics” data at multiple locations and scales”. *Bioinformatics* 34(13):2289–2291. doi: 10.1093/bioinformatics/bty090.

A. Pini, S. Vantini, B. M. Colosimo, M. Grasso (2017): “Domain-selective functional analysis of variance for supervised statistical profile monitoring of signal data”. *Journal of the Royal Statistical Society C*. 67(1): 55–81. doi: 10.1111/rssc.12218.

M. Compagnoni, A. Pini, A. Canclini, P. Bestagini, F. Antonacci, S. Tubaro, A. Sarti (2017): “A Geometrical-Statistical approach to outlier removal for TDOA measurements”. *IEEE Transactions on Signal Processing*. 65(15): 3960–3975. doi: 10.1109/TSP.2017.2701311.

Other publications

A. Pini (2014): “Global and component-wise distribution-free inference for functional data: methods and applications”
PhD Thesis, Politecnico di Milano.

A. Pini (2010): “Clustering di dati funzionali georeferenziati: studi di simulazione e analisi del database NASA Earth Surface Meteorology and Solar Energy”.
Master Degree Thesis, Politecnico di Milano.

R packages

M. A. Cremona, A. Pini, F. Chiaromonte and S. Vantini (2016). **IWTomics**: Interval-wise testing for omics data. R package version 0.99.11.
<https://bioconductor.org/packages/3.5/bioc/html/IWTomics.html>

E. Giarratano, A. Pini, S. Vantini (2016). **tongue.analysis**: Functional inferential analysis for tongue profiles. Available upon request.

A. Stamm, A. Pini, S. Vantini (2016). **fdahotelling**: A package of Hotelling-inspired statistical tests for functional data. Available upon request.

Invited talks at conferences and workshops

*indicates the speaker
2018

A. Pini, S. Vantini (2014). **fdatest**: Interval testing procedure for functional data. R package version 2.1. <http://CRAN.R-project.org/package=fdatest>

Advances in Functional Data Analysis: Cluster, Location and Shape

“An inferential approach for domain selection and profile monitoring of functional data”,

A. Pini*, S. Vantini, B.M. Colosimo, M. Grasso
Rennes, October 24–26 2018.

2018 CRoNoS Workshop on Functional Data Analysis

“The control of family-wise error rate for functional data: a unified framework”,
K. Abramowicz, A. Pini*, L. Schelin, S. Sjostedt de Luna, A. Stamm, S. Vantini
Iasi, August 31 –September 2 2018.

4th Conference of the International Society for Nonparametric Statistics

“Local inference for functional data controlling the family-wise error rate on domain subsets”,

K. Abramowicz, A. Pini*, L. Schelin, S. Sjostedt de Luna, A. Stamm, S. Vantini
Salerno, June 11–15 2018.

2017

10th International Conference of the ERCIM WG on Computational and Methodological Statistics (CMStatistics 2017)

“Local inference for functional on scalar mixed models”,

A. Pini*, H. Sorensen, A. Tolver, S. Vantini
London, December 16–18 2017.

11th Scientific Meeting of the CLAssification and Data Analysis Group of the Italian Statistical Society

“Permutation methods for multi-aspect local inference on functional data”,

A. Pini*, S. Vantini, L. Spreafico and A. Vietti
Milan, September 13–15, 2017.

SIS 2017. Statistics and Data Science: new challenges, new generations.

“Assessment of brain white matter integrity: perspectives from functional data analysis”,

A. Pini, A. Stamm*, S. Vantini
Florence, June 28–30, 2017.

2016

9th International Conference of the ERCIM WG on Computational and Methodological Statistics.

“Partial differential interval-wise testing for the functional data analysis of tongue profiles”,

A. Pini*, S. Vantini, L. Spreafico and A. Vietti
Seville, December 9–11, 2016.

Workshop on Functional Data Analysis

“Interval-wise testing: theory and two case studies”,

A. Pini*, S. Vantini,
Copenhagen, June 26, 2016.

Statistical Seminar at the University of Copenhagen

“Interval-wise testing procedure for domain selection in functional data analysis”,

A. Pini*, L. Spreafico, S. Vantini, A. Vietti,

Copenhagen, January 20, 2016.

- 2015 **8th International Conference of the ERCIM Working Group on Computing & Statistics (ERCIM 2015)**,
“Inference for functional data using the adjusted p -value function”,
A. Pini, S. Vantini*,
London, December 12-14, 2015.
- ISNPS Meeting “Biosciences, Medicine, and novel Non-Parametric Methods”**,
“Permutation-based inference of functional-on-scalar linear models: analysis of human knee kinematics”,
K. Abramowicz, S. De Luna, C. Häger, A. Pini, L. Schelin, S. Vantini*,
Graz, July 12-15, 2015.
- 2014 **7th International Conference of the ERCIM Working Group on Computing & Statistics (ERCIM 2014)**,
“A domain-selective functional ANCOVA for the study of knee movement”,
K. Abramowicz, S. De Luna, A. Pini*, L. Schelin, S. Vantini,
Pisa, December 6-8, 2014.
- 47th Scientific Meeting of the Italian Statistical Society**,
“Hypothesis testing in functional data analysis: a non-parametric approach”,
A. Pini, S. Vantini*,
Università degli Studi di Cagliari. Cagliari, Italy, June 11-13, 2014.
- Joint Statistical Seminars at Umeå University**,
“A domain selective ANCOVA framework for functional data”,
A. Pini*,
Umeå University. Umeå, Sweden, April 15, 2013.
- 2013 **6th International Conference of the ERCIM Working Group on Computing & Statistics (ERCIM 2013)**,
“The interval wise error rate for functional data: the interval testing procedure in action”,

A. Pini, S. Vantini*,
London, December 14-16, 2013.
- Functional Data Analysis Workshop**,
“The interval testing procedure: a novel inferential tool for functional data”,
A. Pini*, S. Vantini,
Umeå University. Umeå, Sweden, November 6, 2013.
- Risk and Uncertainty Modelling School**,
“Uncertainty analysis of solar energy generation by time-varying data modeling, Monte Carlo simulation and fuzzy interval analysis”,
E. Ferrario, A. Pini*,
Como, Italy, September 2, 2013.

Contributed talks at conferences and workshops

A. Pini*, S. Vantini,
Università la Sapienza. Roma, Italy, June 20-22, 2012.

**Ph. D. Thesis
Co-supervision**

Co-supervisor of I. Lovato: “Nonparametric inference for network-valued data”. Ph. D. in mathematics, Università degli Studi di Pavia. Supervisor: S. Vantini, Co-supervisor: A. Pini.

**M. Sc. Thesis
Co-supervision**

Co-supervisor of M. Suaria (2018): “Functional permutation tests for the analysis of proprioceptive ability of ACL-injured subjects”. M. Sc. in mathematical engineering, Politecnico di Milano. Supervisor: S. Vantini, Co-supervisors: A. Menafoglio, A. Pini.

Co-supervisor of A. Pozzari (2017): "Functional clustering of varved lake sediment to reconstruct past climate in Fennoscandia". M. Sc. in mathematical engineering, Politecnico di Milano. Supervisor: S. Vantini, Co-supervisors: S. De Luna, A. Pini.

Co-supervisor of M.L. Battagliola (2017): "A nonparametric local method for inference on functional time series and its application to bike sharing data". M. Sc. in mathematical engineering, Politecnico di Milano. Supervisor: S. Vantini, Co-supervisors: H. Sorensen, A. Pini.

Co-supervisor of S. Castelnovo, M. Ghidelli (2017): "Functional-on-functional linear models for the analysis of sharing mobility in the city of Milan". M. Sc. in mathematical engineering, Politecnico di Milano. Supervisor: S. Vantini, Co-supervisors: A. Pini.

Co-supervisor of M. Castellini (2017): "Statistical assessment of climate predictions by functional data analysis techniques". M. Sc. in mathematical engineering, Politecnico di Milano. Supervisor: S. Vantini, Co-supervisors: L. Bonaventura, A. Pini.

Co-supervisor of J. Galmiche (2017): "Fragmented functional data". M. Sc. in mathematical engineering, Politecnico di Milano. Supervisor: S. Vantini, Co-supervisor: A. Pini.

Co-supervisor of R. Assi (2016): "Functional local permutation tests: a spatio-temporal analysis of tongue dynamics". M. Sc. in mathematical engineering, Politecnico di Milano. Supervisor: S. Vantini, Co-supervisor: A. Pini.

Co-supervisor of C. Bardelli (2016): "Nonparametric confidence intervals based on permutation tests". M. Sc. in mathematical engineering, Politecnico di Milano. Supervisor: S. Vantini, Co-supervisor: A. Pini.

Co-supervisor of E. Giarratano (2016): "Functional permutation tests for articulatory phonetics". M. Sc. in mathematical engineering, Politecnico di Milano. Supervisor: S. Vantini, Co-supervisor: A. Pini.

Co-supervisor of A. Serafini (2016): "Permutational inference for functional-on-scalar linear mixed-effect models applied to equine accelerometric data". M. Sc. in mathematical engineering, Politecnico di Milano. Supervisor: S. Vantini, Co-supervisor: A. Pini.

Co-supervisor of M. Lamblin (2015): "Inference in functional data analysis framework: simulation studies and code optimization". M. Sc. in mathematical engineering, Politecnico di Milano. Supervisor: S. Vantini, Co-supervisor: A. Pini.

Research Grants with Competitive Selection Calls

Towards a more extensive interpretation of data in human movement disorders - innovative statistical approaches (2017 - 2020)

Funding Agency: Vetenskapsradet - Swedish Research Council

Partners: Umea University.

Role in the research project: participant.

Large P Small N (Nov 2011 - Dec 2013)

Funding Program: 5 per 1000 Junior - 2010

Funding Agency: Politecnico di Milano

Partners: Politecnico di Milano, University of Rennes, Emory University.

Role in the research project: participant.

Participation to Research Projects Funded by Private Companies

Sviluppo di modelli fisici e computazionali per Cyber Tyre II (Nov. 2016 - Apr. 2017)

Partners: Politecnico di Milano. Departments: Electronic, Information and Bioengineering; Management, Economics and Industrial Engineering; Mathematics; Mechanics.

Contractor: Pirelli Tyre.

Role in the project: participant.

Sviluppo di modelli fisici e computazionali per Cyber Tyre I (Mar. 2016 - Oct. 2016)

Partners: Politecnico di Milano. Departments: Electronic, Information and Bioengineering; Management, Economics and Industrial Engineering; Mathematics; Mechanics.

Contractor: Pirelli Tyre.

Role in the project: participant.

Ongoing scientific collaborations

Department of Mechanics, Politecnico di Milano, Milan (Italy).

Department of Electronic, Information and Bioengineering, Politecnico di Milano, Milan (Italy).

Department of Mathematical Sciences, University of Copenhagen, Copenhagen (Denmark).

Department of Mathematics and Mathematical Statistics, Umeå University, Umeå (Sweden).

Alps - Alpine Laboratory of Phonetic Sciences, Free University of Bozen/Bolzano, Bolzano (Italy).

Department of Statistics, Pennsylvania State University, University Park, PA (United States).

Scientific and academic activities

Member of the organizing committee of the BarCamp "Technology Foresight and Statistics for the Future", September 2, 2013, Milan (Italy).

Meet me Tonight - Notte dei Ricercatori, Hard Math Café, Milano (Italy). Yrs: 2014, 2013, 2012.

Fellowships, scholarships and awards

- | | |
|------|---|
| 2017 | Post-doctoral fellowship: "Towards a more extensive interpretation of data in human movement disorders - innovative statistical approaches." at Dept. of Statistics, Umeå School of Business and Economics, Umeå University, Umeå Sweden. |
| 2016 | Erasmus+ EU grant for teaching mobility to Umeå University, Umeå Sweden. |
| 2015 | Post-doctoral fellowship: "Inferenza permutazionale per dati funzionali" at Dept. of Mathematics, Politecnico di Milano. |
| 2014 | Scholarship for the international mobility of PhD candidates. |

- 2012 Research fellowship by Large p small n project: “Sviluppo di metodi inferenziali parametrici e non parametrici per l’analisi di dati ad alta dimensionalità” at Dept. of Mathematics, Politecnico di Milano.
- “Best Experience in Science Transfer - First Edition”, award to the Hard Math Café Team, 1st classified, 36 applications. Best activity of the project Meet Me Tonight.
- 2011 “Premio di studio Giovanni Zampese”, scholarship by Cassa rurale ed artigiana di Cantú.
- 2006 Erasmus mobility scholarship for student mobility to Ecole Centrale Paris, Paris (France).
